

### WHO SHOULD ATTEND

Product Manager  
(Change Owner, Change Coordinator, Change Approver),  
Contributors (all responsible engineers from each functional domain)

### LEVEL

Intermediate

### DURATION

1 day

### METHODOLOGY

Instructor-led presentation, exercise, and discussion.

Time:

9:00am to 5:00pm

Venue:

Mawea Industries Sdn Bhd

### PREREQUISITES

Participants attending this module should have completed the 3DSwymer Role and Explore Collaborative Industry Innovator Role, and familiar about the change management framework.

### INTRODUCTION:

In this module, you will learn how to establish a strategic end-to-end collaborative change process.

### OBJECTIVES:

- Highlight the identified problem and generate an issue.
- Validate the issue, determine the type of resolution required and initialize the Change request.
- Create an Impact Analysis for each functional domain and engage the right level of contributors.
- Start the evaluation and assessment (scope and effort) of the change.
- Engage the Change and Control Board (CCB) to review the full scope and effort impact and approve the Change Request.
- Orchestrate and plan the change and set dependencies between different Change Actions (CA).
- Implement the change and work under Change Action.
- Validate and approve the change.
